5. ABOUT THE PROCESS

The Governing Documents for the Association specifies that all improvements must be approved in writing by the **Architectural Compliance Committee (ACC)** before the improvement begins. The Governing Documents protect HOA property values by keeping the community a highly desirable place to live.

The goal of the ACC is to ensure that all changes to your property conforms to the Governing Documents. ACC approval should not be construed to mean the ACC is responsible for defects in plans or specifications, any structural problems or defects in construction or material and/or workmanship. Nor does ACC approval imply compliance with any applicable laws, building codes, or governmental regulations. ACC approval does not imply compliance nor waive the homeowners obligation in areas for which they are responsible (e.g. Building Permits). Obtaining and building permit and/or meeting any or all requirements of a governmental and/or regulatory agencies does not constitute ACC approval.

Allied HOA Management acts as a liaison between the ACC and homeowners. Allied is not the ACC and does not make ACC determinations. Allied HOA managers cannot fill out the ACC request form, plat, materials list, etc., for the homeowner. It is the responsibility of the homeowner to obtain and complete these items.

Please complete this form and submit it with your plans and specifications for the proposed improvement. Once Allied receives your completed application, it is immediately logged and forwarded to the ACC for review.
